WOMEN MODEL

MADE IN CANADA 

Designed for sectors such as **smelting and metallurgy**, this Canadian-made 8 inch boot complies with the highest industry standards. Features include a slip and heat-resistant rubber outsole, an external metatarsal protector, a premium KEVLAR® thread, a superior shock absorption for long-term comfort, and an enhanced sole rigidity to reduce the risk of ankle torsion. In addition, the boot has withstood the submersion test required by the industry. This product is exposed to molten metal and temperatures of up to 1000°C (1832°F).

UPPER

- 1 Water and flame resistant full grain leather that has passed the industry's "spoon" test
- 2 Flame resistant K2™ KEVLAR® threads
- 3 Ultra-resistant TPU PARESHOK™ sewn bumper toe
- 4 VELCRO® elastic fastener
- 5 VELCRO® flap laces cover
- 6 Elastic lacing
- 7 Leather lining

SOLE

- 8 New XPAN 2.0™ rubber outsole technology, ultra-resistant to heat, abrasion and slippage, for enhanced shock absorption
- 9 Direct-injection PU midsole, lightweight and with superior shock absorption
- 10 Extended front sole shape for enhanced durability and shock absorption
- 11 Dual-density insole made of low-density PU and ORTHOLITE® foam
- 12 Additionnal SPACE-R™ flat comfort insole for a customizable fit

PROTECTION FEATURES

- 13 REALFLEX™ external metatarsal protector
- 13 NANOTOE® carbon fiber protective toecap
- 15 Non-metallic puncture-resistant insole
- 16 Protection against electrical hazards
